PROFESSIONAL PROFILE

Detail-oriented IT professional with a B.Sc. in Cyber Security and hands-on experience managing IT infrastructure, systems support, and data security across government and enterprise environments. Proficient in cloud collaboration platforms including Google Workspace, Microsoft Teams, and Slack, with practical experience supporting cross-functional teams and IT workflows. Skilled in network administration, security auditing, and structured IT documentation. Brings a systems-thinking approach to building and managing tech infrastructure from the ground up, with a growing focus on ERP implementation and platform migrations.

PROFESSIONAL EXPERIENCE

IT Support (NYSC) | Infrastructure Concession Regulatory Commission (ICRC), Abuja Jan 2025 – Jan 2026

- Managed and maintained computer systems, network infrastructure, and hardware for 100+ staff ensuring stable, secure, and efficient daily IT operations.
- Supported staff onboarding onto Google Workspace tools (Gmail, Drive, Meet, Docs), configuring user accounts and providing adoption guidance to improve team collaboration efficiency.
- Assisted in evaluating and transitioning internal communication workflows, gaining exposure to platform migration planning between collaboration tools such as Microsoft Teams and Google Chat.
- Built and maintained a structured IT issue log and knowledge base using Google Sheets and Docs, enabling faster resolution of recurring issues and improving operational continuity.
- Produced regular IT audit reports and system health documentation for management, tracking infrastructure status, issue trends, and resolution outcomes.
- Coordinated with administrative units to align IT systems and workflows with business operations, identifying process inefficiencies and proposing structured improvements.

Information Security Intern | Nigerian National Petroleum Company Ltd (NNPC), Abuja 2023

- Conducted structured IT security audits and penetration tests across enterprise systems using Pentera, producing risk-ranked vulnerability reports with clear remediation paths.
- Co-implemented a Data Loss Prevention (DLP) solution — configuring data security policies, access controls, and compliance workflows across organisational systems.
- Supported coordination of security workflows across teams using internal collaboration and ticketing systems, ensuring timely communication of threats and resolutions.
- Delivered structured IT security reports and briefings to senior management, translating technical findings into clear, actionable business recommendations.
- Collaborated with IT and compliance teams to document security processes and implement countermeasures, strengthening overall system resilience.

Data Entry Personnel | Overcommer Telecommunication, Nasarawa 2019

- Managed and maintained accurate records across company databases using Microsoft Excel and Google Sheets, ensuring data integrity and confidentiality.
- Utilised Google Workspace tools for structured data handling and cross-team sharing, maintaining document version control and access management best practices.

EDUCATION

M.Sc. Communication Information Systems | Air Force Institute of Technology (AFIT), Kaduna Mar 2026 – Present

B.Sc. Cyber Security | Air Force Institute of Technology (AFIT), Kaduna March 2021 – Oct 2024

Relevant areas: Network Administration, Enterprise Systems Security, Data Privacy & Management, Risk Assessment, IT Infrastructure Design

CERTIFICATIONS & TRAINING

- Networking Essentials — Cisco Networking Academy
- HCIA-Cloud Computing V4.0 — Huawei University
- Cybersecurity Essentials — ISC²
- Mastercard Cybersecurity Virtual Experience — Forage

TECHNICAL SKILLS

Collaboration Platforms: Google Workspace (Gmail, Drive, Meet, Docs, Sheets, Admin Console), Microsoft Teams, Slack

Systems Administration: IT Infrastructure Management, Network Configuration, Hardware & Software Support, System Deployment & Onboarding

ERP & Workflow: Odoo ERP (in active learning), Workflow Design & Automation, Process Documentation, Platform Migration Planning

Data & Security: Data Loss Prevention (DLP), IT Security Audits, Access Control Management, Data Integrity, Compliance Documentation

Programming & Tools: Python, Java, HTML/CSS, Nmap, Wireshark, Virtual Machines, Microsoft 365

Soft Skills: Structured Thinking, Detail-Oriented, IT Documentation & Reporting, Cross-Functional Coordination, Fast Learner

Languages: English (Fluent), Idoma, Iggede, Hausa
