

FRANK OCHIGBO, SUNDAY

Information Technology Manager | IT Infrastructure, Security & Systems Administration
frankochigbo@gmail.com • +234 903 609 9000 • Abuja, Nigeria (Open to Lagos) • linkedin.com/in/crypterib

PROFESSIONAL PROFILE

Technically grounded IT professional with a B.Sc. in Cyber Security (CGPA 4.34, AFIT) and an M.Sc. in Communication Information Systems currently in progress. Experienced in managing IT infrastructure, enforcing data security frameworks, and providing enterprise-level systems support across government and energy sector environments. Skilled in network administration, vulnerability management, compliance documentation, and data loss prevention. Demonstrates high integrity, structured thinking, and a proactive approach to IT governance — with a strong foundation in cybersecurity practices directly applicable to healthcare IT management, data protection, and system availability.

PROFESSIONAL EXPERIENCE

IT Support (NYSC) | Infrastructure Concession Regulatory Commission (ICRC), Abuja. Jan 2025 – Jan 2026

- Oversaw day-to-day management of IT infrastructure including servers, workstations, network hardware, and software systems serving 100+ staff across the organisation.
- Coordinated IT service delivery across multiple departments, acting as the primary point of contact for technical escalations and ensuring minimal system downtime.
- Managed and maintained a structured IT asset and issue log, tracking system performance, fault patterns, and resolution outcomes to inform infrastructure decisions.
- Supported configuration and deployment of systems and user accounts, enforcing access controls and user permissions in line with institutional IT policy.
- Prepared regular IT operational reports for senior management, covering infrastructure health, incident summaries, and service delivery metrics.
- Collaborated with administrative and operations teams to align IT systems with business continuity objectives, identifying gaps and recommending improvements.

Information Security Intern | Nigerian National Petroleum Company Ltd (NNPC), Abuja. 2023

- Managed enterprise-wide cybersecurity risk by conducting structured penetration tests across multiple network segments using Pentera, identifying and prioritising critical vulnerabilities for remediation.
- Led the co-implementation of a Data Loss Prevention (DLP) solution — configuring security policies, access controls, and data classification frameworks across the organisation's systems.
- Ensured data integrity and compliance by documenting security assessments, enforcing IT governance standards, and aligning security practices with regulatory requirements.
- Monitored and responded to cybersecurity threats in real time, collaborating with IT and compliance teams to implement countermeasures and maintain system resilience.
- Delivered structured IT security briefings and audit-ready reports to senior management, demonstrating strong stakeholder communication and advisory capability.

Data Entry Personnel | Overcommer Telecommunication, Nasarawa. 2019

- Maintained high-accuracy data records across company databases using Microsoft Excel and Google Sheets, applying strict confidentiality and data security protocols.
- Supported data governance practices, ensuring sensitive records were properly secured, access-controlled, and maintained in compliance with company policy.

EDUCATION

M.Sc. Communication Information Systems | Air Force Institute of Technology (AFIT), Kaduna. Mar 2026 – Present
Relevant areas: Communication Systems, Network Management, IT Governance

B.Sc. Cyber Security | Air Force Institute of Technology (AFIT), Kaduna. Mar 2021 – Oct 2024

Relevant areas: Network Security, Enterprise Perimeter Design, Risk Assessment, Ethical Hacking, Data Privacy & Compliance, IT Infrastructure

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

-
- Networking Essentials — Cisco Networking Academy • HCIA-Cloud Computing V4.0 — Huawei University

- Cybersecurity Essentials — ISC² • Mastercard Cybersecurity Virtual Experience — Forage
- Currently pursuing: ITIL Foundation & CompTIA Security+ (in progress)

TECHNICAL SKILLS & COMPETENCIES

IT Infrastructure: Server & Network Management, Hardware/Software Administration, System Deployment, Business Continuity Planning

Security & Compliance: Penetration Testing (Pentera), DLP Implementation, Access Control Management, IT Security Audits, Risk Assessment, Data Governance

Healthcare IT Awareness: Understanding of EMR/EHR Systems, Clinical Data Confidentiality, Healthcare Compliance Frameworks (HIPAA principles)

Cloud & Collaboration: Google Workspace Admin, Microsoft Teams, Slack, Microsoft 365

Leadership & Management: Cross-functional Coordination, IT Reporting, Vendor Liaison, Stakeholder Communication, Team Supervision

Programming & Tools: Python, Java, HTML/CSS, Nmap, Wireshark, Virtual Machines, Microsoft Excel & PowerPoint

Languages: English (Fluent), Idoma, Igbo, Hausa
